EXPERIENCE

iOS Developer
Clearwater Clinical

📅 May 2017 - Present   📍 Ottawa, ON

- Redesigned, developed and deployed a new calibration iOS app from scratch using Objective-C
- Worked under an Agile & SCRUM methodology, reading and reviewing others' code to provide feedback

Calibration Technician
Clearwater Clinical

📅 November 2016 - May 2017   📍 Ottawa, ON

- Calibrating transducers to medically accepted standards to minimize crosstalk as well as maintain volume levels in order to perform hearing tests.
- Helped improve the mobile application and web portal by giving suggestions based on experience with the software

PERSONAL PROJECTS

ParkSpace
iOS App (Swift 3.0)

📅 September 2017

- Created iOS App from the ground up which allows homeowners to rent their lane way at specified times to users who are looking for low cost parking
- Implemented Google Maps, Stripe/Apple Pay for in-app payments, Firebase for authentication, database, storage, and backend functions

Emoji Password Generator
iOS App (Swift 3.0)

📅 February 2017

- Designed and developed a fully functional emoji password generator and memory testing application
- Generates and stores 3 passwords for different systems, shuffles the order and retests the user's memory

Depth to LS
UNIX extension to CoreUtils (C, Kernel)

📅 November 2016

- Added depth augmentation to LS command in any UNIX based OS to display file tree of CWD
- Extension called using *ls -M*
- Ability to specify depth degree using *ls -M –depth=4*

Personal Website
Public website (HTML, CSS, JavaScript)

📅 October 2016

- Publicly available at http://mike-stupich.github.io/
- Designed and built from the ground up and hosted using Github Pages
- Used Jekyll, Gulp, SASS, Jade for the inner workings

EDUCATION

Bachelor of Computer Science, Mobile Development Stream
**Carleton University, 4th year standing**

📅 September 2014 – Present

- Received Entrance Scholarship
- Expected Graduation: December 2018
- Transcript available upon request

AVAILABILITY

📅 May 2018 - September or December 2018
